Powerful Success Stories...

*"In my last role as Australian Manager for an international Seeds company we used Wayne's leadership & coaching facilitation extensively with our managers and management team. As a result of these processes we were able to change our business culture, accelerating our strategic initiatives. **This led to doubling our sales over the next 2 years as a direct result**"* Peter Young, CEO Heritage Seeds

*"We have used Wayne extensively throughout our business driving a new wave of leaders throughout our business. Many of our senior managers have expressed the program had a significant impact in their ability to influence others, and be better coaches to their own people. Some found **the experience was life changing, impacting not just better results at work but home also**"*

Andrew Beer, National Regional Manager – Retail CGU Insurance

*"I have used Wayne on several occasions in my capacity of CEO of various insurance companies. One company made a profit of around a million dollars a year. **Within 2 years of initiating Wayne's processes we had turned that profit into over 11 million dollars** with the same management team. The bonus was the positive influence and impact of that lead team on the rest of the business"*

Paul Serong, CEO Insurance industry

*"In my capacity dealing with mainly manufacturing, engineering and technical managers, the challenge is building leadership capacity and 'people skills'. **Wayne has a great knack of bringing to life practical, common sense processes that build better relationships and productivity.** One of our leaders Wayne recently worked with here at Kodak said the process helped him understand how to better manage conflict and build trust with others"*

Alyson Heinze, Director HR, Kodak
